Peugeot	307 (3A/C, 3E, 3H, 3B)
Citroen	C4, (LC, LA)

IMPORTANT NOTE!

Note the specifications of the vehicle manufacturer!

In various vehicles, the ABS sensors have to be dismantled when replacing the wheel bearing. Exposure to environmental influences and contact corrosion can also affect these sensors so that it is frequently impossible to remove them without causing any damage.

To avoid long down-times in the garage and warrant high customer satisfaction, Ruville the system specialist offers a kit consisting of wheel bearing kit and sensor.

INSTALLATION INSTRUCTIONS:

Always check the struts/bushings of the wheel suspension and steering when replacing the wheel bearing.

INFORMATION

Corresponding spare parts can be found in our online catalogue at www.ruville.de. Where reference is made to the spare parts numbers of the vehicle manufacturers, this is only for the purposes of comparison.
