IMPORTANT NOTE!

The new version is also supplied with an M10x40 bolt (see Image 2). This replaces the M10x35 fixing bolt with which the previous pulley (see Image 1) was attached. Note the specifications of the vehicle manufacturer!

As part of our continuous efforts to improve our products, changes have been made to the deflection pulley, item no. 58850.

This Technical Information sheet shows the visual features of the previous design and the new design.

Aside from the different production method and the 4mm wider pulley, the new pulley is lighter (657 g compared to 966 g for the old pulley).
