This repair kit is used for the comprehensive maintenance of the entire rear suspension on the left and right side for the vehicles listed on the left.

In addition to the usual track control arms in the market, the Ruville set also includes all the necessary rubber-metal bushings 985217 and the stop buffer 835211 for the wishbone 935259.

**INFORMATION**

The corresponding spare parts can be found in our online catalogue at www.ruville.de
