### NB!

It is absolutely necessary for the enclosed fastening screws (Fig. 3) to be used for the water pump with aluminium housing.

Please comply with the instructions issued by the vehicle manufacturers!

### Installation instructions:

- Clean the sealing surfaces (engine side) prior to installation of the new water pump
- Replace the coolant completely and purge the cooling circuit.

Please check the functions of all components in the auxiliary drive and replace these as well if necessary.

Corresponding to changeover implemented by the OES, the RUVILLE water pump 66971 has been changed over from a metal housing (Fig. 1) to an aluminium housing (Fig. 2).

During the changeover period, it is possible for mixed stocks of both versions to occur. Both versions comply with the technical requirements and can be put to unrestricted use for the vehicles stated in the catalogue media.
