IMPORTANT NOTE!

The main distinguishing feature is the front cover and the additional washer for the version in Image 2. In order to align the V-ribbed belt, the enclosed washer must be fitted between the engine block and the deflection pulley.

Observe all information provided by the manufacturer!

For the above-mentioned vehicles, there are two different deflection pulleys with part no. 55700.

Both deflection pulleys differ only in terms of visual appearance or in the contents and can be used without limitation.
