

Change in running surface material

Technical Info No. 1755

Vehicle manufacturer:

Peugeot

Items affected:

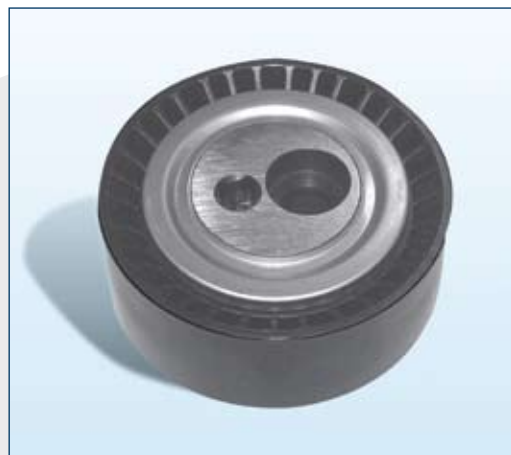

RUVILLE no.	OE no.
56630	5751.29

Due to the constant development of our products, the running surface of the tension pulley RUVILLE no. 56630 has been changed from metal to plastic.

The technical modification brings about a reduction in weight. Other technical properties remain unchanged.

Metal pulley

Plastic pulley
