

Change of running surface material on tension roller 58810, CV

Technical info no. 2094

Applies to make/model:

Iveco, Magirus-Deutz

Applies to engines:

F2BE0682A

Applies to part no.:

No.	RUVILLE ref.	OE ref.
1.	58810	500346227 (plastic) 504106749 (metal)

The CV and bus manufacturer IVECO has replaced the tension roller with plastic pulley (**OE No. 500346227**) with a tension roller with metal pulley (**OE No. 504106749**).

Owing to the design modification, RUVILLE now also supplies the tension roller with metal pulley.

Important note:

Adhere to the manufacturer's specifications at all times!
